

Air Scrubber

Odor Neutralizing Gel with Activated Charcoal

TECHNICAL DATA SHEET

Absorbs offensive odors to neutralize air.

Air Scrubber is an industrial strength odor encapsulator . Formulated as a semi-solid gel, Air Scrubber uses charcoal to absorb odors and neutralize air without perfumes or masking agents. Remove the lid, place the container in an air duct, lavatory, under a sink or on a shelf, and get 30 days of continuous odor control. Cover approximately 400-1,000 square feet for one month.

Air Scrubber removes odors quickly and permanently. It is biodegradable, environmentally friendly, non-toxic and non-staining. Ideal for professional restoration of fire, smoke and flood damage.

Effectively Removes:

- *Smoke odors (tobacco smoke or fire damage)*
- *Mold, mildew and musty smells*
- *Animal and pet odors, including skunk*
- *Bathroom, kitchen and sick room odors*
- *Fuel oil odors*
- *Paint fumes*
- *Cooking odors*
- *Sewer smells*

Usage:

- Fire, smoke or flood restoration work
- Restaurants & industrial kitchens
- Public buildings , including schools , offices & hotels
- Public rooms , lobbies , hallways , restrooms
- Hospitals & healthcare facilities
- Health clubs , athletic facilities & locker rooms
- Veterinary clinics or kennels
- Casinos
- Daycare centers
- Prisons
- Vehicles, including public transportation
