

Carnivore Super

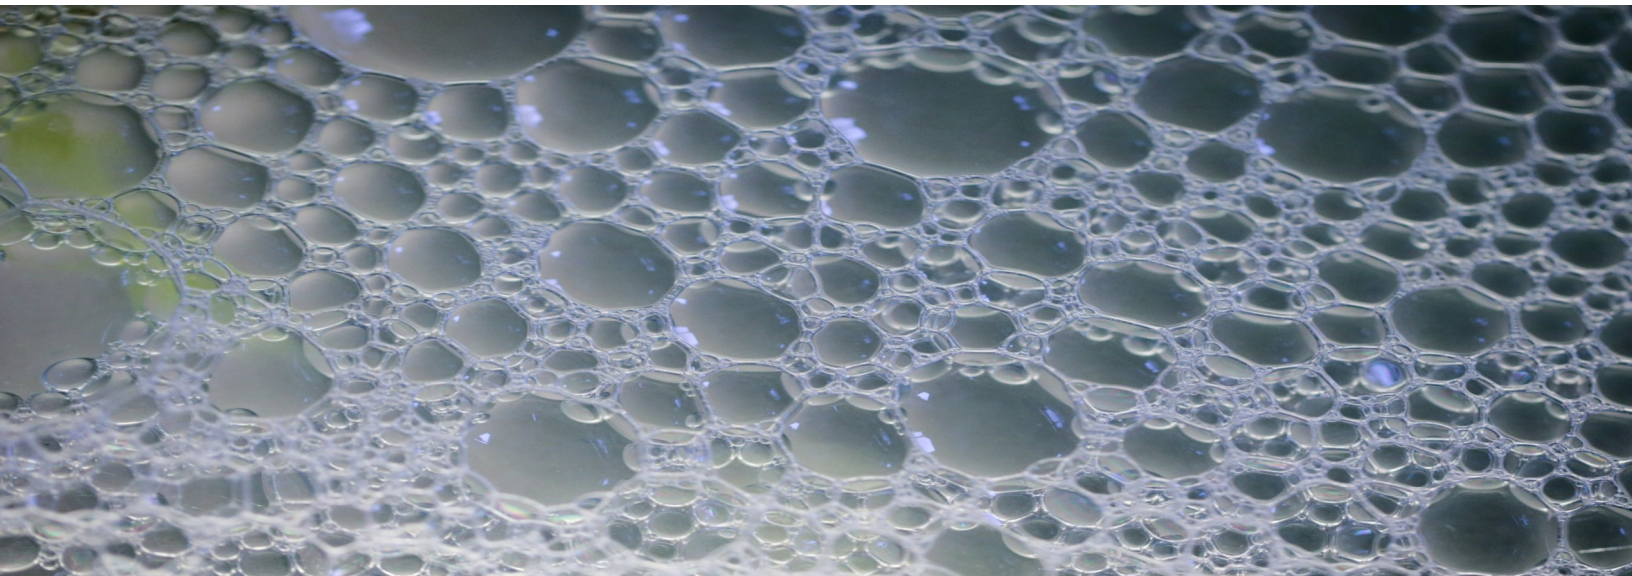

**SOUTHERN TEK
SOLUTIONS**

Live Liquid Bacteria

TECHNICAL DATA SHEET

The natural solution to maintain drain lines & control odors

Odor Control : Simply use the trigger sprayer on the user-friendly convenient quart and spray affected areas where offensive odors hide and multiply. Carnivore Super's live bacteria emit enzymes which will break down and biologically digest odors, thus treating the problem, not just the symptom, as other non-activated deodorizers do. Neutralize and eliminate the odors, don't cover them.

DRAINS, GREASE TRAPS, & SEPTIC TANKS

Carnivore Super digests and liquefies organic waste, grease and food by-products. Our specially designed "squeeze'n tip" metered portioner makes plumbing maintenance simple. Squeeze the bottle and the portioner reservoir will fill, ready to be poured out without spilling a single drop.

Carnivore Super Reduces:

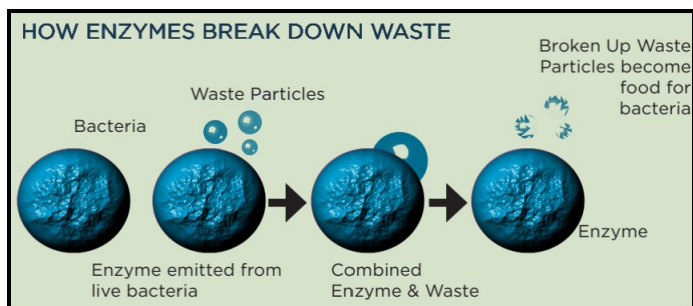

BOD - Bio Chemical Demand
COD - Chemical Oxygen Demand
FOG - Fats, Oils, and Grease
TSS - Total Suspended Solids

Usage:

Urinals & Toilets
Floors
Wall & Partitions
Dumpsters & Trash Chutes
Recycling Containers
Portable Toilets

Works On:

Tile, Porcelain, Steel, Concrete, and Carpets . **100 % Ecologically Safe Non-Pathogenic Non-Toxic Non-Caustic**

Color	White/Opaque - Liquid
Fragrance	Pleasant
Sp.Gr.	1.008
pH	7
Evaporation Rate	>1 (water = 1)
RTU	Yes
Water Soluble	100%
